

Mst. Aysa Siddika Meem

Full Stack Web Developer

01617272980, [Mail](#), Dhaka, Bangladesh

[Github](#) | [Linkedin](#) | [Portfolio](#)

CAREER OBJECTIVE

Dedicated and detail-driven Full Stack Web Developer (MERN Stack) with a strong foundation in software engineering and scalable web application development. Currently pursuing a B.Sc. in Computer Science and Engineering with a focus on Big Data and High-Performance Computing. Passionate about building clean, efficient, and user-centric digital solutions, and eager to contribute technical expertise to innovative development teams.

SKILLS

Technical Skills:

Frontend: HTML5 | CSS3 | JavaScript (ES6+) | React.js | Next.js | Tailwind CSS | Bootstrap | Gsap | Responsive Design

Backend: Node.js | Express.js | MongoDB | REST API | JWT Authentication

Tools & Others: Git & GitHub | Firebase Authentication (Auth, Hosting, Firestore) | AWS | VS Code | Chrome DevTools | Vercel | Netlify

Programming Languages: JavaScript, Python, Java

Interpersonal Skills: Problem Solving | Debugging | Time Management | Team Collaboration | Communication | Leadership

PROJECTS

Gardening Tips App – Personalized Planting & Tips Manager

[LiveSite](#) | [Client Code](#) | [Server Code](#)

A MERN stack CRUD platform for gardening enthusiasts to manage and share tips, access seasonal guides, and sues.

Technologies: React.js, Tailwind CSS, Gsap, Express.js, MongoDB, JWT, Firebase Auth

Key Features:

- Secure user authentication (JWT, Firebase) with full CRUD for public and private gardening tips.
- Interactive “Plant Doctor” for diagnosing plant issues, plus seasonal planting guides and responsive dark/light theme.

BookVerse – Interactive Book Library System

[Live Site](#) | [Client Code](#) | [Server Code](#)

A full-stack MERN app to manage book listings, borrowing, and tracking in a school library system.

Technologies: React.js, Tailwind CSS, Gsap, Express.js, MongoDB, JWT, Firebase Auth

Key Features:

- Secure borrowing system with Firebase & JWT authentication, return deadlines, and borrow-limit validation.
- Dynamic book management with category filters, real-time availability updates, user dashboards, and responsive UI with modern animations.

Real-Time Weather App – Live Climate Dashboard

[Live Site](#) | [Source Code](#)

React.js app providing real-time weather data with visual insights and map integration.

Technologies: React.js, Tailwind CSS, OpenWeatherMap API .

Key Features:

- Live climate tracking using OpenWeatherMap API with hourly and multi-day forecasts, temperature, wind, and AQI insights.
- Dynamic user interface with search-by-city, live weather maps, flood alerts, and a fully responsive, user-friendly design.

EDUCATION

Major: BSc (Honours) in Computer Science and Engineering

Independent University Bangladesh(IUB)

Minor: Big Data & High-Performance Computing

PROFESSIONAL EXPERIENCE

Research Assistant - CanSat Project. FabSat, Independent University, Bangladesh

2023 – Present

Developed embedded telemetry systems for real-time sensor data

Cybersecurity Developer - Independent Research

2024

Created RSA-based encryption for secure file sharing and transmission

District Leader – NCTF (UNICEF Bangladesh) Barguna Division

2019 – 2020

Led 500+ volunteers for child rights advocacy and public health programs

ACHIEVEMENTS & ACTIVITIES

-Dean's Merit Award, IUB

-Organizer of IUB IEEE & ACM Club Programs

-RSA-based secure communication system designer - District Leader - NCTF UNICEF-Youth Leadership Program

LANGUAGES

- Bengali (Native)
- English (Professional Proficiency)
