

Mst. Aysa Siddika Meem

Full Stack Web Developer

Passionate about AI/ML, scalable web apps & clean user experiences

01617272980, [Mail](#), Dhaka, Bangladesh

[Github](#) | [Linkedin](#) | [Portfolio](#)

CAREER OBJECTIVE

Dedicated and detail-oriented Full Stack Web Developer with a strong foundation in software engineering and scalable web application development. Currently pursuing a B.Sc. in Computer Science and Engineering at Independent University, Bangladesh (IUB), with a focus on Big Data and High-Performance Computing. Passionate about building clean, efficient, and user-centric digital solutions, with a growing enthusiasm for Artificial Intelligence and Machine Learning. Eager to contribute both full-stack expertise and AI/ML knowledge to innovative and forward-thinking development teams.

SKILLS

Frontend Technologies: HTML5 | CSS3 | JavaScript (ES6+) | React.js | Next.js | TypeScript | Tailwind CSS | Bootstrap | Gsap | Responsive Design

Backend & API: Node.js | Express.js | MongoDB | REST API | JWT Authentication

Tools & Platforms: Git & GitHub | Firebase Authentication (Auth, Hosting, Firestore) | AWS | VS Code | Chrome DevTools | Vercel | Netlify

Programming Languages: JavaScript, Python, Java

Interpersonal Skills: Problem Solving | Debugging | Time Management | Team Collaboration | Communication | Leadership

PROJECTS

Gardening Tips App – Personalized Planting & Tips Manager

[LiveSite](#) | [Client Code](#) | [Server Code](#)

A MERN stack CRUD platform for gardening enthusiasts to manage and share tips, access seasonal guides, and more.

Technologies: React.js, Tailwind CSS, Gsap, Express.js, MongoDB, JWT, Firebase Auth

Key Features:

- Secure user authentication (JWT, Firebase) with full CRUD for public and private gardening tips.
- Interactive “Plant Doctor” for diagnosing plant issues, plus seasonal planting guides and responsive dark/light theme.
- Designed for scalability and optimized for performance using component reusability and efficient state management.

BookVerse – Interactive Book Library System

[Live Site](#) | [Client Code](#) | [Server Code](#)

A full-stack MERN app to manage book listings, borrowing, and tracking in a school library system.

Technologies: React.js, Tailwind CSS, Gsap, Express.js, MongoDB, JWT, Firebase Auth

Key Features:

- Secure borrowing system with Firebase & JWT authentication, return deadlines, and borrow-limit validation.
- Dynamic book management with category filters, real-time availability updates, user dashboards, and responsive UI with modern animations.
- Borrowing system with return deadlines and **borrow-limit validations** to streamline library operations.

ChronicleInk FullStack News Platform – Modern News & Subscription Hub

[Live Site](#) | [Client Code](#) | [Server Code](#)

A modern, scalable full-stack news platform built with React, Vite, Firebase, and Node.js that offers premium content, subscription management, and robust admin control.

Technologies: React.js, Tailwind CSS, OpenWeatherMap API.

Key Features:

- Premium subscription & secure authentication: Manage paid subscriptions and user access securely via Firebase Authentication.
- Robust admin dashboard: Comprehensive control panel to manage users, articles, publishers, and platform settings efficiently.
- Rich article management & responsive UI: Publish, edit, and showcase news articles with a clean, responsive interface featuring light/dark themes.

EDUCATION

Major: BSc (Honours) in Computer Science and Engineering

Independent University Bangladesh(IUB)

Minor: Big Data & High-Performance Computing

PROFESSIONAL EXPERIENCE

Research Assistant - CanSat Project. FabSat, Independent University, Bangladesh

2023 – Present

Developed real-time data dashboard for telemetry using React and sensor APIs

ACHIEVEMENTS & ACTIVITIES

-Dean's Merit Award, IUB

-Organizer of IUB IEEE & ACM Club Programs

-RSA-based secure communication system designer - District Leader - NCTF UNICEF-Youth Leadership Program

LANGUAGES

- Bengali (Native)
- English (Professional Proficiency)
